

ARAVIND S

NOC Engineer | Network Operations Center

📍 Arakkonam, Tamil Nadu | 📞 +91 8807136139 | ✉️ aravindsvya32@gmail.com

PROFESSIONAL SUMMARY

Results-driven NOC Engineer with hands-on experience in monitoring and managing large-scale WAN environments across 17+ sites and 450+ network devices. Skilled in troubleshooting, network performance optimization, and incident management using tools like NNMI, NMS, and PRTG. Strong knowledge of routing and switching. Known for maintaining high uptime, reducing incident resolution time, and ensuring SLA compliance.

PROFESSIONAL EXPERIENCE

NOC Engineer

Elintsys Technologies India Pvt. Ltd.

(Client: Renault Nissan Automotive India Pvt. Ltd.) | July 2024 – Present

- Monitor 17 enterprise sites across India over a WAN topology, overseeing 450+ network nodes for continuous uptime and SLA compliance.
- Utilize NNMI, NMS, and PRTG for real-time performance monitoring, proactive fault detection, and rapid resolution of network incidents.
- Provide uninterrupted 24x7 NOC support, reducing mean-time-to-repair (MTTR) through timely troubleshooting and systematic escalation.
- Configure and maintain routers, switches, and implement network upgrades to enhance performance and security posture.
- Work with cross-functional teams for efficient issue resolution

Trainee – Hardware, Networking & CCNA

Daphne InfoTech | 6 Months

- Assisted in configuring routers and switches, troubleshooting hardware faults, and setting up network environments.
- Gained practical experience with CCNA-level tasks: VLAN configuration, STP, routing protocols, and IP addressing.

KEY ACHIEVEMENTS

- Managed network monitoring for 450+ nodes across 17 enterprise WAN sites for Renault Nissan Automotive India (RNAIPL).
- Maintained 24x7 NOC operations ensuring consistent SLA compliance and minimal network downtime.
- Contributed to successful network upgrades that improved performance and strengthened security across the WAN infrastructure

TECHNICAL SKILLS

Routing Protocols:

- Routing Protocols: RIP, OSPF, EIGRP, BGP
- Switching: VLAN, VTP, STP, RSTP, EtherChannel
- IPv4 Services: DNS, DHCP, NAT

Tools & Monitoring:

- NNMI, NMS, PRTG
- Wireshark (Packet Analysis)

WAN Technologies:

- MPLS, WAN Optimization, Load Balancing
- IP Transit, Peering

Troubleshooting

- Ping, Traceroute, Telnet
- Cisco SHOW commands
- Root Cause Analysis & Incident Handling

EDUCATION

B.Sc. in Computer Science

Sri Ram College of Arts and Science | 2023.

Higher Secondary School (12th)

Sri Krishna Matric Higher Secondary School | 2020.

Secondary School (10th)

Bharathidasan Matric Higher Secondary School | 2018

CERTIFICATIONS & TRAINING

- CCNA Training – Daphne InfoTech (hands-on router/switch configuration, routing protocols, network troubleshooting)
- Front End Development – Great Learning Academy
- Application Developer (Web & Mobile) – Government of Tamil Nadu Skills Training, October 2023

CORE COMPETENCIES

- Network Troubleshooting & Incident Management
- Analytical Thinking & Problem Solving
- Team Collaboration
- Time Management & Multitasking
- Adaptability & Quick Learning
